Diana M. Bowman

Diana M. Bowman is an Associate Professor at the Sandra Day O’Connor College of Law and School for the Future of Innovation in Society, ASU. She is a leading expert in public health, emerging technologies and the law.

Wednesday
November 9, 2016
6:00 – 8:00 pm
ASU Beus Center for Law and Society ASU (Downtown)

Appetizers will be provided.
RSVP: bit.ly/ZIKA_ASU

What does the 2016 U.S. election mean for combatting emerging infectious diseases like Zika? How can emerging technologies help in the fight against infectious disease? What are the potential hurdles? How does a shifting legal and social landscape affect our ability to ensure the health of all Americans in the face of old and new disease threats?

Join three of ASU’s leading experts in technology, law and public health in an evening of lively discussion on the challenges and opportunities of combatting infectious diseases like Zika in a politically, socially and technologically changing world.
