Antarctica: The Frozen Continent

Winter Break

Study Abroad Office
School for the Future of Innovation in Society
Join us on a once-in-a-lifetime opportunity to explore and experience first-hand the physical, ecological, social, and political landscape of Antarctica. Starting from Ushuaia, Argentina, you’ll be accompanied by scientists and naturalists as you cross the famous Drake Passage on your voyage to the frozen continent. Once there, you’ll explore the human and natural environment up-close, from icebergs and penguins, to old research and whaling buildings. You may even spot whales! The preceding fall semester will be spent meeting once a week learning more about the history, climate and environment of Antarctica that will prepare us for our two-week trip to the continent itself.

Key Details

**Dates:** December 17 - December 29, 2020  
**Eligibility:** 2.8 GPA, complete short interview with Faculty Director  
**Application Deadline:** March 1, 2020
